Office of the Mayor

August 25, 1980

Dear Council Members:

I would like to take this opportunity to respond to several concerns you have expressed to me.

First, it has been and is my intention to fill the slot of Board of Safety Director very shortly. Without a doubt, we can find the person we need for this critical job before any additional police officers are hired.

Second, my administration has always been committed to the concept of psychological testing for Police Officers. During the campaign, I expressed dismay that the Armstrong Administration discontinued the practice of psychological testing during the Police entrance process. Chief Wolfe shares my belief that the stress which every Police Officer must live with on the job necessitates a thorough psychological analysis of all potential Police Officers. However, my staff's review of the concept of psychological testing indicates that it will probably be both expensive and somewhat problematic from an affirmative action viewpoint. I have every confidence that with your help and support, we can work through these problems - and with your approval, I am willing to guarantee that we will administer a psychological test to all prospective candidates for selection in the next police class. I hope, however, that you will not underestimate the problems attendant to psychological testing, and that you will support my Administration if, in fact, these difficulties surface in the future.

Third, in 1973, a previous administration commissioned a very expensive and extensive review of the Police Department's resources requirements and operating procedures. This study, conducted by the International Association of Chiefs of Police, determined that at the 1973 crime level, 332 sworn officers were required in Fort Wayne. Since then, crime has risen dramatically, and there is no doubt that we require more officers now than in 1974. In addition, the Chiefs of Police study made numerous other recommendations which I believe should be the basis for an intensive study of the effectiveness of our department.

August 25, 1980

Dear Council Members:

My proposed 1981 Civil City Budget requests enough money to expand EMS. This expansion allows for 12 additional ALS Technicians and 2 additional ambulances in order to reduce response time and improve the medical emergency service available to the people of this community.

Should you see fit to approve this budget, I fully intend to initiate an evaluation of Emergency Medical Service. This evaluation will cover at least the following areas:

First, an evaluation of our present system for providing emergency health care - it's benefits and detriments, its strengths and weaknesses.

Second, and evaluation of the basic issue of whether public or private EMS is better suited to providing our community with ambulance service.

Third, an examination of the potential for utilizing and integrating alternate emergency health care providers into the EMS system.

Fourth, and most importantly, the creation of a statistical method for measuring the effectiveness of our Emergency Medical Services. Effective management necessitates a model for measuring and evaluating whether or not Fort Wayne's EMS is doing their job well or badly.

I share your belief, expressed both in open council session and to me personally, that the time has come for a comprehensive review of emergency medical health care provision in our City. Good management practices involves periodic reviews in all areas, and I am happy to comply with your request to conduct an intensive survey before implementing my proposed expansion of service. However, in order to be able to initiate changes in 1981, it is imperative that the budget as I submitted it be passed. To delay 1981 funding would mean that an expansion of EMS' service could not take place for many additional months.

Sincerely,

Win Moses, Jr.

Mayor

CHARLES W. WESTERMAN, CITY CLERK
AN EQUAL OPPORTUNITY EMPLOYER

Agreement between the City Council and the Mayor regarding expenditures of funds allocated in the 1981 Civil City budget:

EMS

Expansion of EMS shall not be effected until a needs assessment study is completed and presented to the community, showing such things as an evaluation of the present system, evaluation of public vs. private operation, and other alternatives such as use of fire department personnel. Further, a method shall be devised to evaluate whatever emergency medical system is determined to be most effective for the City, so that a measure is available to chart the effectiveness of the system in the future.

Police

- 1 No person shall be hired as patrol officer, in 1980 or 1981, until the Director of the Board of Public Safety is employed by the City.
- 2 No person shall be hired as a patrol officer, in 1980 or 1981, until such time as all potential hires can be tested with psychological screening procedures. Such procedures shall be incorporated as a routine part of testing of all future recruits.
- 3 After the Director of the Board of Public Safety is hired, a management study of the Police Department shall be conducted, by a professional and unbiased person or group, to determine such things as current management effectiveness, appropriate levels of staff in the various ranks, most effective in-service training procedures, most beneficial use of the Police Academy, and other factors, so as to provide a guide to development of the best management structure and techniques for the operation of the Department.
